

Spoon River College Career and Technical Education Perkins Partner

Spoon River College is a community college serving the counties of Fulton, Mason, McDonough, and Schuyler. We have campuses located in Canton, Havana, Macomb, and Rushville.

One of the missions of community colleges -- and especially SRC -- is to train students to work in high-demand career fields. Through this process, we not only help you train for the job you want, but we also contribute to the success of area business and industry.

Career Programs at Spoon River College lead to an Associate in Applied Science degree and/or a variety of certificates. Career Programs are designed to prepare students for the workplace upon completion of the course of study. They are not designed for transfer to a four-year college. The college continually reviews area and regional economic and employment conditions to ensure that the programs will not only successfully train students for their chosen career field, but that they will meet the needs of area employers.

Spoon River College has adopted the national Career Cluster framework. Career Clusters are groups of occupations and industries that have in common a set of foundational knowledge and skills. There are 16 nationally recognized clusters within which are multiple Career Pathways.

Included is a list of career programs available at Spoon River College. Please contact Brad O'Brien, Dean of Career and Workforce Education at **309-649-6294** or brad.obrien@src.edu with any questions about eligibility, procedures, contacts, or for referrals.

In addition to offering career programs, we also are able to provide customized training. Our commitment to a total training solution means we'll partner with you to create customized programs that are central to your organization's success. By working cooperatively with business and industry we can jointly address many of the workforce and training needs of the region and community. We have state-of-the art facilities available or we can provide training on-site at your place.
